## Professional summary

Resourceful Software Developer with 1 year of experience. Strong problem-solving skills and ability to effectively communicate technical concepts. Passionate about finding innovative solutions to complex problems. Continuously seeking opportunities to enhance knowledge and skills in software development.

## Employment history

### Team Lead/Foreman

Green Country Home Repair, Bartlesville, OK — Oct, 2018 - Mar, 2023

- Managed a team of 3 construction workers, ensuring 15+ jobs were completed on time and adhered to the highest standards of the International Builders Code.
- Ensured adherence to OSHA safety standards by implementing daily safety briefs and granting any member of my team the authority to stop work due to safety violations.
- Provided on-site training and mentorship to new team members to ensure they understand and follow company standards and best practices.

### Airborne Infantryman

US Army, Anchorage, AK — Jan, 2017 - Oct, 2018

- Participated in extensive training exercises around the world, reinforcing teamwork, discipline, and a strong work ethic.
- Demonstrated reliability and proficiency in high-stress situations when conditions were uncertain and leadership was absent.
- Utilized excellent communication skills to relay important information quickly and effectively that contributed to timely completion of mission objectives.
